

Balíkovna on your website

Offer your clients a **fast and modern mode of transportation** directly on your website and have a profit from each parcel sent. Your clients will be able to order transportation and submit posting data in their profile without having to use any further applications. **Integrate our Balíkovna to obtain multiple benefits!**

HOW DOES IT WORK?

- 1 The seller will **choose Balíkovna as the mode of transportation** of the offered products.
  **Balíkovna**
  **Balíkovna**
na adresu
- 2 The buyer will order products and **choose Balíkovna or Balíkovna na adresu as the mode of transportation**. A map-based widget will be available to choose the destination Balíkovna outlet.
- 3 When the deal is made and transportation ordered, the seller will receive **an email recapitulation from Balíkovna including the address label and posting instructions**. Based on the data submitted via the API, the seller will be able to display the same recapitulation on your website. The seller will not have to copy the address details. Everything will be run on your website.
- 4 The seller will pack the products, stick the address label onto the parcel, and hand over the parcel to a Balíkovna outlet or put it into a box. **You can find Balíkovna outlets at every corner. At the newsagent's shops, post offices, or boxes.** Sellers who do not have a printer may write the posting code on the parcel and bring the parcel to a Balíkovna including boxes (excluding OX Point boxes).
- 5 You will receive an invoice every month, with **a summary of parcels posted by your clients**.
