

3 STEPS to send a parcel via OX Point Box

1. PRINT THE ADDRESS LABEL AND STICK IT ON THE PARCEL

Go to **balikovna.cz/poslat-balik** or use the **Balíkovna mobile app**, fill in the shipping details, pay by card, and **print out the address label**. Stick the address label on the parcel and drop it off at the nearest OX Point Box.

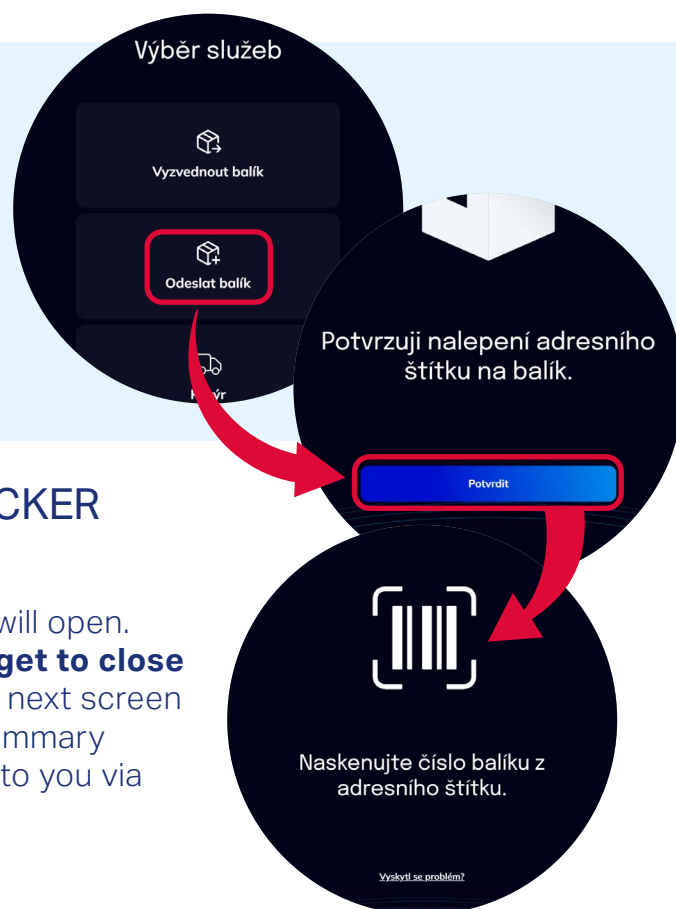

You can also use an OX Point Box to send parcels with items sold on **aukro** or **Vinted**!

2. AT THE OX POINT BOX, TAP SEND PARCEL

Confirm that the address label is stuck on the parcels, and scan the barcode from your address label.

3. PLACE THE PARCEL IN THE LOCKER AND CLOSE IT

Once your code is verified, a free locker will open. Put your parcel inside and **don't forget to close the door**. Tap **CONFIRM** on the next screen to confirm the shipment. A summary of the shipment will be sent to you via email.

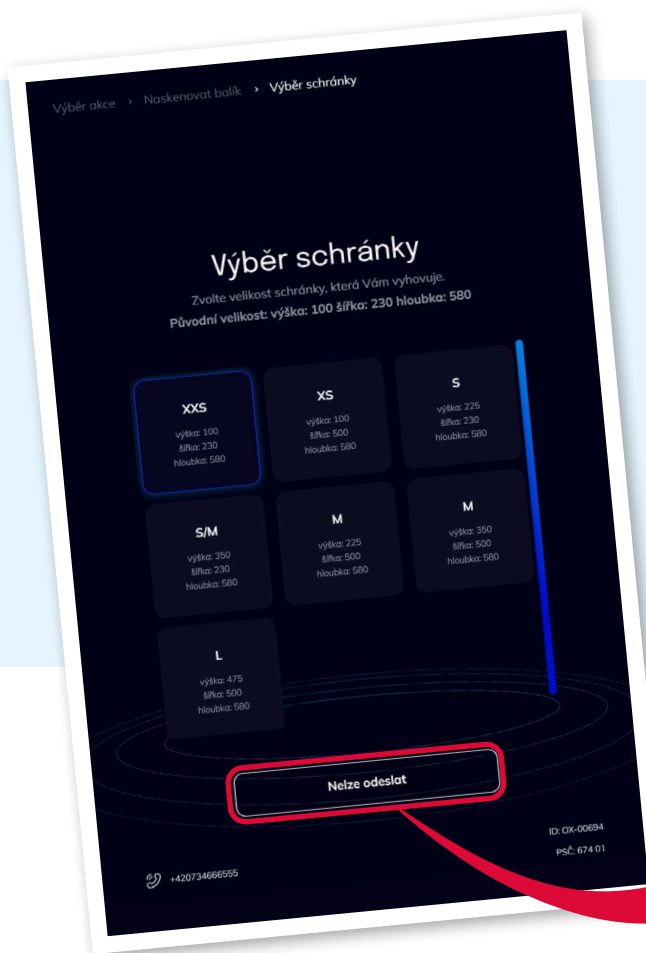

WHAT TO DO, if....?

YOU NEED A BIGGER LOCKER

If your parcel **doesn't fit in the open locker**, select **CHOOSE ANOTHER LOCKER** on the OX Point screen and close the original one.

Choose a locker based on the size of your parcel and follow the instructions on the screen

NO LOCKER SIZE FITS YOUR PARCEL

Is there no available locker size that fits your parcel? In this case, select **CANNOT SEND**. The sending will be cancelled and a confirmation will appear on the screen. You will then be able to **send the parcel from another Balíkovna location or box**.
